Production Equipment and Consumables for the Electronics Industry

Tel 0845 1700 123, Fax 0845 3900 123, email sales@benzLtd.com

For:

- Reflow Ovens
- Screen Printers
- Sewer Stations
- SMD Chip Bonding
- SMD Tape Splicing
- Summy Components
- Line Pitch Placement
- OSP Cut Adhesive Mask
- Manual & Smt Auto Paste
- Soldering Irons

**FINETECH**  
...simply accurate  
**Leaders in SMT**

**Steierform**  
Innovative Self Adhesive Technology

## Product Information

### SMD Cover Tape Connectors

For joining Surface Mount Component Tapes we recommend the use of our Double Splice Tapes for 8mm paper tapes. For other widths and plastic tapes the carrier tape is often joined with brass shims (also available from us, together with the joining tool). To join the cover tapes our Cover Tape Connectors provide the convenient means for quick and secure splicing.

48mm long die cut yellow self-adhesive strips, supplied in several widths, suitable for the various standard tape sizes, come in reels of 1,000 pieces on split liners for ease of application (the 8mm version even has sprocket holes in the liner for alignment with the locator pins of the joining tool).

The bond between the cover tapes and the connectors is sufficient to ensure that they will not separate, even after prolonged time under tension.

Details of the  **Steierform** SMD Cover Tape Connectors:

Part No	Width	For SMD Tape	Qty/Roll	£/Roll
3.0749.00	4.9mm	8 mm	1000	£45.00
3.0712.00	8mm	12mm	1000	£45.00
3.0716.00	12mm	16mm	1000	£45.00
3.0724.00	20mm	24mm	1000	£47.00

Other sizes and transparent or black versions are available to special order, also in pre cut lengths.
